	Name of Student:	**AB**
	Sets: square or triangle	
	Further tools:	**313**
	Date:	

Description of the task:

Make a mosaic from the elements of the square or the triangle set in which the fields of the same colour should be next to each other at the vertices. Try to use all the elements of the set.

Make a mosaic in which you give the rule according to which the elements are put next to each other.

Draw four matching elements.

Solution(s) of the task:

Remarks / Self-evaluation:
