

Good practices COMM_6050A_EN

Author's name and institution:

Edith Debrenti, Brigitta Halász, Partium Christian University, Oradea

Description of the problem / exercise: **Guided Game Ideas in Kindergarten 3**

The aim of the game: Put together a model in a way, for example, that only the red surfaces are connected. For kindergarteners, it is enough to play with only one kind of package at the time.

Making the game harder: For older children, all of three packages can be used at the same time.

Target audience: For all ages

Duration: Variable, but it can be time-based

Number of players: Alone, in pairs or in groups

- *Why this exercise is good:* It develops children's observation skills, teamwork, and cooperation. It also allows them to compete against time in a healthy way.
- *Which level is recommended:* Kindergarten, elementary school.
